

Order Cut-off Times / Load Days / Delivery Days

For orders placed that will need shop work done, your orders will need to be placed by the date under **Factory Order Cut-Off**. Orders that will not need any shop work done, your cut-off time will be under **Non-Factory Order Cut-off**. **Load Day** will be the day your truck is loaded and **Delivery Day** will be the day our truck will deliver product to your yard. (If two or three days are listed under Delivery Day, it is an overnight run. Your delivery day will depend on where you are in the delivery route.) To find the Route # you are on, please refer to a past Delivery Ticket. It will be shown in the header.

If you miss a cut-off time or day, please contact our Customer Service Department to see if it is still possible to get product loaded on the truck. We will always try to accommodate our customer's needs.

<u>Route #</u>	<u>Area</u>	Factory Order Cut-off 2:00 P.M.	Non-Factory Order Cut-off 3:00 P.M.	<u>Load Day</u>	<u>Delivery Day</u>
